250. JUBILÄUM
TU BERGAKADEMIE FREIBERG

1765 – 2015

SCHÄTZE HEBEN

http://tu-freiberg.de/jubilaeum
The TU Bergakademie Freiberg is...
...the only German university of resources which has set up as the internationally leading university of resources.
...the oldest mining university in the world.
...the oldest incessantly existing higher technical educational institution in the German-speaking area.

The TU Bergakademie Freiberg...
...is valid as a successful model for a modern profile university.
...offers a unique spectrum of courses of studies which covers the whole value creation chain from the exploration of the raw materials up to the recycling.
We arouse enthusiasm for our values!
The 250th anniversary is a wonderful occasion to present our outlasting and daily lived keywords sustainable, shining, new.

The keyword sustainable
Our resource profile follows the basic idea of the sustainable development which was already written down more than 300 years ago by the chief mining administrator of Freiberg, Hans Carl von Carlowitz, in his "Sylvicultura Oeconomica" and which until today is one of the central values of the TU Bergakademie Freiberg:
„daß es eine continuierliche beständige nachhaltige Nutzung gebe“
("the fact that there is a continuous lasting use")

The keyword shining
We owe our international radiation to the attraction of the resource profile.
„Von glänzenden Mineralen zu geschliffenen Ideen“
(“from shining minerals to polished ideas“)

The keyword new
Our claim in research and apprenticeship is the innovation beginning of the theory up to the technical practice test:
„Theoria cum Praxi“
Please note: In general a personal invitation is necessary to participate in the mentioned events.

- **6th March 2015**: Opening of our festival year with the inauguration of the „Historicum“ containing the historical collections of TU Bergakademie Freiberg
- **March – November 2015**: Presentation of the 5 anniversary publications with readings and possibilities for discussion
- **April – July 2015**: Special Exhibition „Flying Jewels II“
- **18th – 20th May 2015**: Students’ Days with music and sports
- **19th May 2015**: Day of International Encounter with information about studying abroad, foreign cooperating universities and an exchange of experience on mobility, language training and internships
- **20th June 2015**: Science Night with children’s university, alumni meeting and anniversary concert
- **21st June 2015**: Ecumenical Service on occasion of the 250th anniversary
- **27th June 2015**: Freiberg City Festival
- **13rd September 2015**: Open Monument Day
Please note: In general a personal invitation is necessary to participate in the mentioned events.

- **8th October 2015**: Common celebration of the 250th anniversary of the Bergakademie Freiberg and the 500th anniversary of „Geschwister-Scholl-Gymnasium“ Freiberg
- **14th October 2015**: Celebration of matriculation and the opening of the 2014/2015 Academic Year
- **7th November 2015**: Graduation celebration and university ball
- **21st November 2015**: Ceremony on the occasion of the 250-year-old existence of the Bergakademie Freiberg on the day on which 250 years ago, on the 21st of November in 1765, the decree of the foundation was signed.
- **27th November 2015**: Annual meeting of the Society of Friends and Supporters of the TU Bergakademie Freiberg
- **16th December 2015**: Christmas Concert
- **3rd May 2016**: Opening of the special exhibition „250th Anniversary Review“
In 2015 a number of renowned national and international scientific conferences will take place in Freiberg.

Please note: In general a personal invitation or registration is necessary for a participation in the mentioned conferences.

- **17th – 18th March 2015**: 14th Colloquium of Construction Raw Materials/ Aggregates
- **25th – 26th March 2015**: 5th Freiberg Innovations Symposium - Energy and Raw Material Shift
- **25th – 27th March 2015**: MEFORM 2015 - The annual meeting MEFORM will take place at the Institute of Metal Forming at the TU Bergakademie Freiberg. The topic will be „Light Metals – Forming Technologies and Further Processing“.
- **7th – 8th May 2015**: 16. „Geokinematischer Tag“ - The Institute for Mine Surveying and Geodesy at the TU Bergakademie Freiberg invites scientists to discuss analysis methods and possibilities for data ascertainment of kinematics on top and below the surface.
- **8th – 9th May 2015**: 65th annual meeting of the Institute for Ceramics, Glass and Enamel Technology at the TU Bergakademie Freiberg
- **23rd – 24th June 2015**: Annual Meeting of the International Organizing Committee (IOC) of the World Mining Congress (WMC)
- **21st – 26th June 2015**: 26th annual meeting of the Society of Mining Professors
- **5th – 13rd September 2015**: 17th annual meeting of the International Association for Mathematical Geosciences
Please note: In general a personal invitation or registration is necessary for a participation in the mentioned conferences.

17th – 18th September 2015: Annual meeting of the Society for Scientific University Collections

7th – 10th October 2015: Conference „Energy and Raw Materials“ / 7th Mining-Colloquium - This Conference offers the possibility for an exchange of experiences on questions of energy supply and raw material extraction.

29th – 30th October 2015: 25th Ledebur-Colloquium - The scientific conference of the Foundry Institute at the TU Bergakademie Freiberg is the traditional meeting place for an exchange of experience on current developments and trends in the foundry sector.

October 2015: 39th Clemens-Winkler-Colloquium - The Faculty of Chemistry and Physics invites top-class scientists for an exchange of experience on current developments.

19th – 20th November 2015: 4th World Forum of Universities of Resources on Sustainability (WFURS)
