

INTERNATIONAL CONFERENCE

ECONOMIC MANAGEMENT IN MINERAL ACTIVITIES – EMMA 5 15th – 16th October, 2020, Hanoi, Vietnam

CALL FOR PAPERS

Mineral activities are formed by a wide range of mineral exploration, excavation, enrichment, transportation and sales. The contribution of mineral activities for the nations' wealth and the sustainable development is more and more globally important. To put a puzzle into that entire picture of management in mineral activities, the International Conference on Economic Management in Mineral Activities EMMA is organized at Hanoi University of Mining and Geology the fifth time in 2020, expecting to attract international academicians from many countries. During EMMA conferences which is first held from 2013 we have had good opportunities to connect distinguished guests and participants from Australia, Brazil, Germany, India, Laos, Myanmar, Peru, Russia, Thailand, Vietnam, and the United States.

In 2020 the conference is coming once again on October 15th and 16th. This is also the year which the Faculty of Economics and Business Administration - University of Mining and Geology celebrates its jubilee of 20 years of establishment and development. The Organizing Committee of the EMMA 5 is honored to invite you to participate and contribute to the success of this remarkable event. We do hope that the EMMA 5 can create a forum for scientists, specialists and managers from Vietnam and other countries to exchange ideas and present latest research outcomes. The conference EMMA 5 is under the auspices of the Society of Mining Professors (SOMP) for the second time.

A Regional Meeting in Southeast Asia of SOMP will be organized in this occasion, on 14th October 2019.

The EMMA 5 is also organized parallelly with the International Conference on

Innovations for Sustainable and Responsible Mining.

Main themes of EMMA 5 are as follow:

1. Organizational structure management in the mining industry
2. Financial management in the mining industry
3. Human resource management in the mining industry
4. Business strategy of the mining industry
5. Environmental and ecological protection, and sustainable development
6. Risk management, occupational safety and health management
7. Mining policies
8. Energy and climate change
9. Social license to operate
10. Miscellaneous

We welcome all scholars and industrial representatives in these disciplines to contribute to the conference by their keynote speeches, peer reviewing, peer-reviewed papers, interesting presentations and informative posters.

Important dates of the conference:

	EMMA5 - 2020
Deadline for abstracts submission	30/04/2020
Notification of acceptance to authors	10/05/2020
Full paper submission	31/05/2020
Return comments to authors	30/06/2020
Final full paper Re-submission	20/07/2020
Conference days	15-16/10/2020
- In-door conference	15/10/2020
- Excursion: Sin Quyen Copper Complex	16/10/2020

Paper manuscripts should be prepared in English. All submissions will undergo a blind peer review process. Only accepted papers are published in the conference proceedings and considered for oral presentation. Qualified papers could be published in the **Springer Book** or in the **Inzynieria Mineralna Journal**. All the papers in the Springer book or in the Inzynieria Mineralna Journal will be indexed in Scopus database. Posters are the other alternative of oral presentations.

Authors are kindly reminded to follow the requirements for the conference manuscripts:

- Being original work that has never been submitted for publication elsewhere;
- Being between 8,000 to 10,000 words in length and prepared on A4 size papers follow strictly the proceedings template.
